Engineering Genetic Circuits Feb 08 2021 An Introduction to Systems Bioengineering Takes a Clear and Systematic Engineering Approach to Systems Biology Focusing on genetic regulatory networks, Engineering Genetic Circuits presents the modeling, analysis, and design methods for systems biology. It discusses how to examine experimental data to learn about mathematical models, develop efficient abstraction and simulation methods to analyze these models, and use analytical methods to guide the design of new circuits. After reviewing the basic molecular biology and biochemistry principles needed to understand genetic circuits, the book describes modern experimental techniques and methods for discovering genetic circuit models from the data generated by experiments. The next four chapters present state-of-the-art methods for analyzing these genetic circuit models. The final chapter explores how researchers are beginning to use analytical methods to design synthetic genetic circuits. This text clearly shows how the success of systems biology depends on collaborations between engineers and biologists. From biomolecular observations to mathematical models to circuit design, it provides essential information on genetic circuits and engineering techniques that can be used to study biological systems.

Myers' Psychology for AP Mar 24 2022 With an undeniable gift for writing, David Myers will lead your students on a guided tour of psychological science and poignant personal stories. This ground-breaking text is correlated directly to the AP® course. Whether you are new to AP® Psychology or have many years under your belt, this uniquely AP® book program can help you achieve more.

Research Design & Statistical Analysis Jun 02 2020 This book emphasizes the statistical concepts and assumptions necessary to describe and make inferences about real data. Throughout the book the authors encourage the reader to plot and examine their data, find confidence intervals, use power analyses to determine sample size, and calculate effect sizes. The goal is to ensure the reader understands the underlying logic and assumptions of the analysis and what it tells them, the limitations of the analysis, and the possible consequences of violating assumptions. The simpler, less abstract discussion of analysis of variance is presented prior to developing the more general model. A concern for alternatives to standard analyses allows for the integration of non-parametric techniques into relevant design chapters, rather than in a single, isolated chapter. This organization allows for the comparison of the pros and cons of alternative procedures within the research context to which they apply. Basic concepts, such as sampling distributions,

expected mean squares, design efficiency, and statistical models are emphasized throughout. This approach provides a stronger conceptual foundation in order to help the reader generalize the concepts to new situations they will encounter in their research and to better understand the advice of statistical consultants and the content of articles using statistical methodology. The second edition features a greater emphasis on graphics, confidence intervals, measures of effect size, power analysis, tests of contrasts, elementary probability, correlation, and regression. A Free CD that contains several real and artificial data sets used in the book in SPSS, SYSTAT, and ASCII formats, is included in the back of the book. An Instructor's Solutions Manual, containing the intermediate steps to all of the text exercises, is available free to adopters.

They Thought They Were Free Dec 29 2019 "When this book was first published it received some attention from the critics but none at all from the public. Nazism was finished in the bunker in Berlin and its death warrant signed on the bench at Nuremberg." That's Milton Mayer, writing in a foreword to the 1966 edition of *They Thought They Were Free*. He's right about the critics: the book was a finalist for the National Book Award in 1956. General readers may have been slower to take notice, but over time they did—what we've seen over decades is that any time people, across the political spectrum, start to feel that freedom is threatened, the book experiences a ripple of word-of-mouth interest. And that interest has never been more prominent or potent than what we've seen in the past year. *They Thought They Were Free* is an eloquent and provocative examination of the development of fascism in Germany. Mayer's book is a study of ten Germans and their lives from 1933-45, based on interviews he conducted after the war when he lived in Germany. Mayer had a position as a research professor at the University of Frankfurt and lived in a nearby small Hessian town which he disguised with the name "Kronenberg." "These ten men were not men of distinction," Mayer noted, but they had been members of the Nazi Party; Mayer wanted to discover what had made them Nazis. His discussions with them of Nazism, the rise of the Reich, and mass complicity with evil became the backbone of this book, an indictment of the ordinary German that is all the more powerful for its refusal to let the rest of us pretend that our moment, our society, our country are fundamentally immune. A new foreword to this edition by eminent historian of the Reich Richard J. Evans puts the book in historical and contemporary context. We live in an age of fervid politics and hyperbolic rhetoric. *They Thought They Were Free* cuts through that, revealing instead the slow, quiet accretions of change, complicity, and abdication of moral authority that quietly mark the rise of evil.

The Art of Software Testing Oct 19 2021 This long-awaited revision of a bestseller provides a practical discussion of the nature and aims of software testing. You'll find the latest methodologies for the design of effective test cases, including information on psychological and economic principles, managerial aspects, test tools, high-order testing, code inspections, and debugging. Accessible, comprehensive, and always practical, this edition provides the key information you need to test successfully, whether a novice or a working programmer. Buy your copy today and end up with fewer bugs tomorrow.

Monster Nov 27 2019 This New York Times bestselling novel from acclaimed author Walter Dean Myers tells the story of Steve Harmon, a teenage boy in juvenile detention and on trial. Presented as a screenplay of Steve's own imagination, and peppered with journal entries, the book shows how one single decision can change our whole lives. *Monster* is a multi-award-winning, provocative coming-of-age story that was the first-ever Michael L. Printz Award recipient, an ALA Best Book, a Coretta Scott King Honor selection, and a National Book Award finalist. *Monster* is now a major motion picture called *All Rise* and starring Jennifer Hudson, Kelvin Harrison, Jr., Nas, and A\$AP Rocky. The late Walter Dean Myers was a National Ambassador for Young People's Literature, who was known for his commitment to realistically depicting kids from his hometown of Harlem.

History of Tammany Hall Feb 20 2022

Psychology in Everyday Life Jan 22 2022 Creating an exceptionally student-friendly textbook in psychology isn't just about making the chapters shorter and pages more colorful. It's about using that type of format to provide a clear portrait of psychological science, concise but not oversimplified, all while continually answering the recurring student question: "What does this have to do with me?" David Myers' brief introduction to psychology, *Psychology in Everyday Life*, certainly does offer brief, easily manageable chapters and a colorful, image-rich design (both shaped by extensive research, class testing, and instructor/student feedback). But what makes it such an exceptional text is what flows through those chapters—rich presentations of psychology's core concepts and field-defining research, examined in context of the everyday lives of all kinds of people around the world and communicated in the captivating storyteller's voice that is instantly recognizable as Myers'. The new edition of *Psychology in Everyday Life* offers an extraordinary amount of new research, effective new inquiry-based study tools, and further design innovations, all while maintaining its trademark brevity and clean layout. And it is accompanied by an innovative media/supplements of the same scope as all of David Myers' more comprehensive textbooks.

Psychology Through the Eyes of Faith Feb 29 2020 Identifies the major ideas that college and university students will encounter in a basic psychology course and explores connections with Christian belief.

Psychology in Modules Nov 19 2021

EBook: Social Psychology 3e Oct 26 2019 Social psychology has a profound influence on our everyday lives; from our shopping habits to our interactions at a party. It seeks to answer questions that we often think and talk about; questions such as: - What circumstances prompt people to help, or not to help? - What factors influence the ups and downs of our close relationships? - Why do some people behave differently when on their own compared to in a group? - What leads individuals sometimes to hurt, and other times to help one another? - Why are we attracted to certain types of people? - How do some persuade others to do what they want? This new edition of *Social Psychology* has been revised to introduce a more flexible structure for teaching and studying. It includes up-to-date, international research with an emphasis throughout on its critical evaluation. Applied examples across the chapters help to highlight the relevance, and hence the impact, that the theories and methods of this fascinating subject have upon the social world. Key Features Include: - Research Close-Up: Following a brand-new style, this feature matches the layout used in research papers, providing an accessible introduction to journal articles and the research methods used by social psychologists. - Focus On: Fully revised, these boxes look at opposing viewpoints, controversial research or alternative approaches to the topics. This offers a more critical outlook and prompts the questioning of the validity of published research - Recommended Readings: New to this edition, recommended further readings of both classic and contemporary literature have been added to each chapter, providing a springboard for further consideration of the topics. Connect Psychology is McGraw-Hill's digital learning and teaching environment. Students - You get easy online access to homework, tests and quizzes designed by your instructor. You receive immediate feedback on how you're doing, making it the perfect platform to test your knowledge. Lecturers - Connect gives you the power to create auto-graded assignments, tests and quizzes online. The detailed visual reporting allows you to easily monitor your students' progress. In addition, you can access key support materials for your teaching, including a testbank, seminar materials and lecture support. Visit: <http://connect.mcgraw-hill.com> for more details. Professor David N. Myers holds the Sady and Ludwig Kahn Chair in Jewish History. As of fall 2017, he serves as the director of the Luskin Center for History and Policy. He previously served as chair of the UCLA History Department (2010-2015) and as director of the UCLA Center for

Jewish Studies (1996-2000 and 2004-2010). Dr Jackie Abell is a Reader in Social Psychology with the Research Centre for Agroecology, Water and Resilience, based at Coventry University, UK. Her current areas of research interest include the application of social psychology to wildlife conservation and environmental issues to facilitate resilience and sustainable development, place attachment and identity, social cohesion and inclusion. Professor Fabio Sani holds a Chair in Social and Health Psychology at the University of Dundee. His general research interest concerns the mental and physical health implications of group processes, social identity and sense of belonging. He has been an associate editor of the European Journal of Social Psychology.

Psychology Oct 07 2020 David Myers' bestselling Psychology has reached a wider audience of students and instructors with each new edition. Myers and his team lead the field in being attuned to psychology's research and the needs of the instructors and students in the course today. Ten million student class testers and thousands of adopting instructors can attest to the quality of this project. True to form, this landmark new Tenth Edition is another vigorous, deeply considered revision. Watch our new videos from David Myers here, including our animation on THE TESTING EFFECT narrated by David Myers. For more information on the new edition of Psychology, please visit our preview site.

The Economics of Race and Crime Jan 28 2020 The relationship between crime and the economy has received too little attention from researchers. This volume remedies that deficit, resurrecting several classic writings on this elusive topic by and about blacks, and presenting new contributions by researchers at the frontier of work on the subject. Among the landmark articles included are W.E.B. Dubois' famous examination of crime in Philadelphia, an analysis of black criminal behavior by Walter Willcox, who was chief statistician of the Census Bureau at the time he wrote this essay, and excerpts from the ninth Atlanta Conference on Negro Crime. The frontier articles use quality microdata to understand particular aspects of criminal justice processes. They address the relationship between employment and criminal behavior, tradeoffs among education, employment, and crime, and the link between overall economic conditions and rates of incarceration. Among the authors represented in the landmark research articles are Harold Votey and Llad Phillips, Richard Freeman, David Good and Maureen Pirog-Good, Dario Melossi, and Samuel Meyers and William Sabol. Richard MaGahey concludes the volume with comments on the current status of research in the field. This volume captures the emerging tension within scholarship on race and crime, and provides both a reflective vision of work in this area as well as state-of-the-art research by leading scholars.

Social Psychology May 26 2022 Revised edition of the authors' Social psychology, [2016]

Myers' Psychology for the AP® Course Sep 29 2022 Thus begins market-leading author David Myers' discussion of developmental psychology in Unit 9 of his new Myers' Psychology for AP® Second Edition. With an undeniable gift for writing, Dr. Myers will lead your students on a guided tour of psychological science and poignant personal stories. Dr. Myers teaches, illuminates, and inspires. Four years ago, we published this ground-breaking text which is correlated directly to the AP® course. Today, we build on that innovation and proudly introduce the 2nd AP® Edition. Whether you are new to AP® psychology or have many years under your belt, this uniquely AP® book program can help you achieve more.

Updated Myers' Psychology for the AP® Course Aug 29 2022 Announcing a new Myers/DeWall text, created specifically for the Fall 2019 AP® course framework! You are likely familiar with the name Dr. David G. Myers. Now, he and his new co-author, Nathan DeWall, bring you a book that will allow you to use College Board's new Personal Progress Checks and Dashboard more effectively. This updated edition includes 100% of the new course content in the new nine-unit structure. All teacher and student resources will also be updated to correlate to the new student edition;

this includes the TE, TRFD, TB, Strive, and LaunchPad. Everything will publish in summer 2020 such that you can use this new program for Fall 2020 classes. If you're not familiar with Myers/DeWall texts, you are in for a treat! Drs. Myers and DeWall share a passion for the teaching of psychological science through wit, humor, and the telling of poignant personal stories (individually identified in the text by the use of each author's initials [DM and ND]). Through close collaboration, these authors produce a unified voice that will teach, illuminate, and inspire your AP® students.

Adherence to Treatment in Medical Conditions Sep 25 2019 Poor adherence or compliance to treatment has major medical, psychological and economic consequences. This monographs provides comprehensive coverage of issues and research in the area of adherence and treatment in medical conditions. It covers all aspects within this field and includes chapters on the role of doctor-patient communications; memory; adherence in specific groups, such as children and the elderly; adherence to different treatments, such as diet and exercise; and reviews of adherence in specific conditions, such as diabetes and asthma.

Teachers Behaving Badly? May 02 2020 Behaviour that involves an abuse of a teacher's position of trust or a breach of the standards of propriety is regarded as misconduct and may lead to a teacher being barred from the teaching profession. This book offers the school leader advice on making decisions arising from misconduct or alleged misconduct of their staff. It addresses issues such as: how to deal with an allegation of a teacher's sexual misconduct how to judge when a relationship between a pupil and teacher becomes abusive how to decide what to do about drug abuse how to support an 'outed' gay or lesbian teacher how to decide when private matters become public ones how to deal with the media. Often there are no clear-cut answers, or easy solutions, but this book will raise the dilemmas and explain the employment and criminal law in jargon-free language. School leaders have to make important decisions about such incidents, considering their responsibility to their staff, to the local community, and to their pupils. Leadership training rarely includes exposure to these issues, but most people working in schools may have to face them at some point in their career. Teachers Behaving Badly draws on real cases and explores the dilemmas faced, offering practical and legal advice to help school leaders prepare for such critical incidents.

Exploring Psychology Jun 26 2022

Updated Myers' Psychology for Ap(r) Apr 24 2022 Announcing a new Myers/DeWall text, created specifically for the Fall 2019 AP® course framework! You are likely familiar with the name Dr. David G. Myers. Now, he and his new co-author, Nathan DeWall, bring you a book that will allow you to use College Board's new Personal Progress Checks and Dashboard more effectively. This updated edition includes 100% of the new course content in the new nine-unit structure. All teacher and student resources will also be updated to correlate to the new student edition; this includes the TE, TRFD, TB, Strive, and LaunchPad. Everything will publish in summer 2020 such that you can use this new program for Fall 2020 classes. If you're not familiar with Myers/DeWall texts, you are in for a treat! Drs. Myers and DeWall share a passion for the teaching of psychological science through wit, humor, and the telling of poignant personal stories (individually identified in the text by the use of each author's initials [DM and ND]). Through close collaboration, these authors produce a unified voice that will teach, illuminate, and inspire your AP® students.

Fallen Angels Jul 04 2020 Fallen Angels by Walter Dean Myers is a young adult novel about seventeen-year-old Richie Perry, a Harlem teenager who volunteers for the Army when unable to afford college and is sent to fight in the Vietnam War. Perry and his platoon—Peewee, Lobel, Johnson, and Brunner—come face-to-face with the Vietcong, the harsh realities of war, and some dark truths about themselves. A thoughtful young man with a gift for writing and love of basketball, Perry learns to navigate among fellow soldiers under tremendous stress and struggles with his own fear as he sees

things he'll never forget: the filling of body bags, the deaths of civilians and soldier friends, the effects of claymore mines, the fires of Napalm, and jungle diseases like Nam Rot. Available as an e-book for the first time on the 25th anniversary of its publication, *Fallen Angels* has been called one of the best Vietnam War books ever and one of the great coming-of-age Vietnam War stories. Filled with unforgettable characters, not least Peewee Gates of Chicago who copes with war by relying on wisecracks and dark humor, *Fallen Angels* "reaches deep into the minds of soldiers" and makes "readers feel they are there, deep in the heart of war." *Fallen Angels* has won numerous awards and honors, including the Coretta Scott King Award, an ALA Best Book for Young Adults, a Booklist Editors Choice, and a School Library Journal Best Book. *Fallen Angels* was #16 on the American Library Association's list of the most frequently challenged books of 1990-2000 for its realistic depiction of war and those who fight in wars.

Exploring Psychology Oct 31 2022

Exploring Social Psychology Jan 10 2021

Slavoj Zizek Dec 09 2020 Slavoj Zizek is no ordinary philosopher. Approaching critical theory and psychoanalysis in a recklessly entertaining fashion, Zizek's critical eye alights upon a bewildering and exhilarating range of subjects, from the political apathy of contemporary life, to a joke about the man who thinks he's a chicken, from the ethical heroism of Keanu Reeves in *Speed*, to what toilet designs reveal about the national psyche. Tony Myers provides a clear and engaging guide to Zizek's key ideas, explaining the main influences on Zizek's thought (most crucially his engagement with Lacanian psychoanalysis) using examples drawn from popular culture and everyday life. Myers outlines the key issues that Zizek's work has tackled, including: What is a Subject and why is it so important? The Imaginary, the Symbolic and the Real What is so terrible about Postmodernity? How can we distinguish reality from ideology? What is the relationship between men and women? Why is Racism always a fantasy? Slavoj Zizek is essential reading for anyone wanting to understand the thought of the critic whom Terry Eagleton has described as "the most formidably brilliant exponent of psychoanalysis, indeed of cultural theory in general, to have emerged in Europe for some decades.

Telemental Health May 14 2021 Acquiring access to mental health treatments can be difficult for those who are not near mental health facilities. The growing field of telemental health addresses this problem by using video and telephone conferencing to provide patients with access to psychiatric professionals. However, the process faces challenges to gain adoption into mainstream medical practice and to develop an evidence base supporting its efficacy. In this comprehensive text, leading professionals in the field provide an introduction to telemental health and explore how to construct a therapeutic space in different contexts when conducting telemental health, how to improve access for special populations, and how to develop an evidence base and best practice in telemental health. In the past 15 years, implementation of telemental health has seemed to follow more from need than from demonstrated efficacy. The thorough and insightful chapters within this book show the importance of continued research and thoughtful development of ethical and responsible practice that is needed in the field and begin to lay out steps in constructing this process. *Telemental Health* will be an essential book for all clinical practitioners and researchers in mental health fields. Information in this book is focused on the clinical practice of telemental health, no other text is similarly oriented to clinical practice. Limited options for interested audience makes this text a top choice The Editors are experienced in multiple aspects of e-health across diverse clinical settings, and the authors are national leaders who are most knowledgeable regarding developments in the field Emphasis is on providing evidence-based care, and telemental health emerges as comparable to usual care, not a "second best" option; material is not esoteric but relevant to clinical practice. Readers will be able to readily find the equipment and other technology to establish

their practice

Economics and Property Apr 12 2021 This text focuses on the introduction of economic principles to provide an understanding of the commercial and residential property sectors and the markets for development, construction and occupation of property. Economics and Property supports students following property economics courses leading to a career in the property profession. Experience suggests that economics can initially be perceived as challenging; this book makes the subject clear and comprehensible. Extracts and examples from the Estates Gazette and its electronic archive EGi are used to provide examples and raise questions for discussion. Glossaries, key learning points and a clear layout make this book the best introduction to economics for the property profession.

Loose-leaf Version for Psychology Mar 12 2021 David Myers' new partnership with coauthor C. Nathan DeWall matches two dedicated educators and scholars, each passionate about teaching psychological science through writing and interactive media. With this new edition of the #1 bestselling Psychology, Myers and DeWall take full advantage of what an integrated text/media learning combination can do. New features move students from reading the chapter to actively learning online: How Would You Know puts students in the role of scientific researcher and includes tutorials on key research design principles; Assess Your Strengths self-tests help students learn a little more about themselves, and include tips about nurturing key strengths. These and other innovations rest on the same foundations that have always distinguished a new David Myers edition—exhaustive updating (hundreds of new citations), captivating writing, and the merging of rigorous science with a broad human perspective that engages both the mind and heart.

CHANGE! A Student Guide to Social Action Jun 22 2019 This is the first practical social change text devoted to students working in an academic environment. While there are many books about community organizing and social change, there are no college texts focusing on how to provide real-world experience with academic content taking into consideration the flow of the academic term. CHANGE! A Student Guide to Social Action is written specifically for faculty and staff to use with college students with the goal of helping students bring about the change they believe is necessary to make our community a better place to live.

Surfactant Science and Technology Sep 17 2021 A solid introduction to the field of surfactant science, this new edition provides updated information about surfactant uses, structures, and preparation, as well as seven new chapters expanding on technology applications. Offers a comprehensive introduction and reference of the science and technology of surface active materials Elaborates, more fully than prior editions, aspects of surfactant crystal structure as well as their effects on applications Adds more information on new classes and applications of natural surfactants in light of environmental consequences of surfactant use

Understanding Media Psychology Jul 16 2021 Understanding Media Psychology is the perfect introductory textbook to the growing field of media psychology and its importance in society, summarizing key concepts and theories to provide an overview of topics in the field. Media is present in almost every area of life today, and is an area of study that will only increase in importance as the world becomes ever more interconnected. Written by a team of expert authors, this book will help readers to understand the structures, influences, and theories around media psychology. Covering core areas such as positive media psychology, the effects of gaming, violence, advertising, and pornography, the authors critically engage with contemporary discussions around propaganda, fake news, deepfakes, and the ways media have informed the COVID-19 pandemic. Particular care is also given to addressing the interaction between issues of social justice and the media, as well as the effects media has on both the members of marginalized groups and the way those groups are perceived. A final chapter addresses the nature of the field moving forward, and how it will continue to interact with closely related areas of study. Containing a range

of pedagogical features throughout to aid teaching and student learning, including vocabulary and key terms, discussion questions, and boxed examples, this is an essential resource for media psychology courses at the undergraduate and introductory master's level globally.

Exploring Psychology in Modules Aug 17 2021 The new edition of Exploring Psychology in Modules offers outstanding currency on the research, practice, and teaching of psychology. Myers and DeWall inspire students with fascinating findings and applications, effective new study tools and technologies, and a compassionate and compelling storytelling voice.

Social Psychology Nov 07 2020 Adopting a multicultural approach, this text guides readers in the study of social thinking, social influence, and social relations. It emphasises social psychology's applications to both work and life, and uses vignettes to emphasise the relevance of social psychology research.

Pedagogies of With-ness Aug 05 2020 Across the globe, students are speaking up, walking out, and marching for social and ecological justice. Despite deficit discourses about students, youth are using their voice and agency to call forth a better world. Will educators respond to this call to stand with students in relational solidarity as co-constructors of a new tomorrow? What is possible when teachers and students engage together in new ways? *Pedagogies of With-ness: Students, Teachers, Voice and Agency* offers insight into the transformative possibilities of education when enacted as the art of being with. Driven by student voices and their experiences of marginalization, this text takes a clear ethical stance. It asserts that students are both capable and competent. Taking a narrative approach, this book honors academic work that is rooted in educational practice. Expanding beyond traditional conceptions of student voice, chapters engage in meditations on three themes: identity, pedagogy, and partnership. This book is an exploration of with-ness, a way of knowing, being, and acting. By centralizing the all-too-often suppressed wisdom of youth, teachers and researchers engage in new forms of critique and possibility-making with students. Editors reflect on this central theme, exploring the dimensions of such pedagogies of with-ness. Through this book, teachers are invited to imagine pedagogy under this new framework, actively committed to students, their voice, and mutual engagement. [Click HERE](#) to watch the editors discuss their book. Perfect for courses such as: Social Foundations | Student-Teacher Partnerships | Secondary Methods | Service Learning Leadership Ethnic Studies | Democracy and Civics | Social Justice and Education | Student Voice in Classrooms/Education | Ethical Issues in Education | Leadership for Social Justice

Social Psychology Mar 31 2020 This fully revised and updated edition of Social Psychology is an engaging exploration of the question, "what makes us who we are?" presented in a new, streamlined fashion. Grounded in the latest research, Social Psychology explains the methods by which social psychologists investigate human behavior in a social context and the theoretical perspectives that ground the discipline. Each chapter is designed to be a self-contained unit for ease of use in any classroom. This edition features new boxes providing research updates and "test yourself " opportunities, a focus on critical thinking skills, and an increased emphasis on diverse populations and their experiences.

[Save the Date](#) Aug 24 2019 Gemma hates her new husband As daughter of a man in charge of the CIA, Gemma Harrison knows her father is overprotective. She just didn't realize it would go this far. After receiving threats against her increase, her father assigns a body guard she can't stand to protect her. But the worst part is the guise her father wants it done under: a fake marriage. Now, she has to plan a wedding to a man she hates - okay, maybe he's attractive and has a butterfly-inducing Southern accent - but she is only twenty years old! She wasn't expecting to settle down so soon, especially not when she has a crush on her community college's star athlete, Troy. Now that Agent Dixon Black is constantly with her, her dreams of

making out in the backseat of Troy's Camaro are completely ruined. When things get real - both with Dixon and the danger she's in - Gemma is forced to reevaluate her feelings about Dixon, especially when he saves her life. Feelings can't be fake, and Gemma is starting to feel for Dixon Black. Fans of James Bond and The Proposal will fall in love with this new adult romantic comedy standalone from Heather C. Myers. Scroll up and 1-click your copy today!

Social Psychology Dec 21 2021 In this edition, the author once again weaves an inviting and compelling narrative that speaks to ALL of your students regardless of background or intended major. And with Connect Social Psychology and LearnSmart, students are able to create a personalized learning plan helping them be more efficient and effective learners. With LearnSmart, students know what they know and master what they don't know and faculty are able to move to more in-depth classroom discussions. Through examples and applications as well as marginal quotations from across the breadth of the liberal arts and sciences, Myers draws students into the field of social psychology. At the same time, Myers is also in tune with the ever-changing state of social psychology research. Research Close-Up and Inside Story features throughout the book provide deeper exposure to key research and researchers. Marginal quotations, examples and applications throughout each chapter, and the concluding Applying Social Psychology chapters all ensure that regardless of your students' interests and future plans, Social Psychology will engage them.

Psychology Jul 28 2022 From its beginnings to this remarkably fresh and current new edition, Myers and DeWall's Psychology has found extraordinarily effective ways to involve students with the remarkable research underlying our understanding of human behavior. But while the content and learning support evolves edition after edition, the text itself continues to be shaped by basic goals David Myers established at the outset, including to connect students to high-impact research, to focus on developing critical thinking skills, and to present a multicultural perspective on psychology, so students can see themselves in the context of a wider world. This new edition offers 2100 research citations dated 2015-2020, making these the most up-to-date introductory psychology course resources available. With so many exciting new findings, and every chapter updated with current new examples and ideas, students will see the importance and value of psychological research, and how psychology can help them make sense of the world around them. The abundant, high quality teaching and learning resources in LaunchPad and in Achieve Read & Practice, carefully matched to the text content, help students succeed, while making life easier and more enjoyable for instructors.

Experimental Psychology Jul 24 2019 Focusing on experimental methods, authors Anne Myers and Christine Hansen lead students step by step through the entire research process, from generating testable hypotheses to writing the research report. The major sections of the book parallel the major sections of a research report (Introduction, Method, Results, and Discussion), giving students the skills they'll need to design and conduct an experiment, analyze and interpret the research findings, and report those findings. Although the main focus is on experimentation, alternative approaches are discussed as important complements. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Social Psychology Jun 14 2021 Adopting a multicultural approach, this text guides readers in the study of social thinking, social influence, and social relations. This edition emphasises social psychology's applications to both work and life, and uses vignettes to emphasise the relevance of social psychology research.

Young Children and Spirituality Sep 05 2020 Maintaining that spiritual development is an integral element in child development, Barbara Kimes Myers provides a framework for the discussion of spirit and spirituality in the lives of children. Through her discussion of the four core conditions of a spirituality of caring, she crosses the borders of various faiths and applies her theories to a variety of

practical and professional settings. Through Myers' discussion of the four core conditions of a spirituality of caring, she crosses the borders of various faiths and applies her theories to a variety of practical and professional settings, providing a common language that can be used to talk about the centrality of spirit--that which fuels development and learning. She discusses transcendence, family life, cognition, church and state, fundamentalism and multiculturalism. Her framework emerges from her understanding of the thinking of key child developmental theorists--Vygotsky, Piaget, Erikson, Gardner, Giroux and Noddings.
