The Changing Face of Medical Education Apr 05 2020 The past 50 years - and even the past 20 years - have seen almost revolutionary change in medical education, which has emerged as a distinct discipline during that time. The curriculum to be covered, the most effective learning and teaching methods, and what kind of professional (and indeed person) medical education is intended to produce, how success can best be assessed and - not least - the make-up of students and teachers themselves have all changed enormously. This unique text draws together a wide variety of perspectives and focuses in particular on the experiences of one of the U.K.'s newer medical schools. It examines the key changes that have shaped the field, its practitioners and its students, presenting unique perspectives on both its history and on the current state of the art. This book is rewarding and informative reading for educationalists, academics, sociologists and researchers in medical history and education. 'The education of our healthcare professionals is one of the most important challenges for higher education. In setting up the new medical school at UEA we recognised this challenge and set out to develop a method of teaching and learning that put the student and their learning needs at the centre of the curriculum. The results of this and some of the developments that have emerged from those early days

are outlined in this book.' - from the Foreword by Shirley Pearce

The Changing Face of U.S. Politics Oct 12 2020 This is a Handbook for the generations of workers coming into the factories, mines, and mills - workers who will react to the uncertain life, ceaseless turmoil, and brutality that will accompany the arrival of the twenty-first century. It is a handbook for young people who, in growing numbers, are repelled by the racism, women's inequality, and other intolerable social relations reproduced daily by capitalism on a world scale. It is a book for fighters who sense that this social system, if not replaced, will lead to economic devastation, fascist tyranny, and world war. Above all, it aims to show why only the working class can lead humanity out of the social crisis endemic to capitalism in its decline. It shows how millions of workers, as political resistance grows, will revolutionize themselves, their unions, and all of society.

The Changing Face of Evil in Film and Television May 07 2020 The popular media of film and television surround us daily with images of evil - images that have often gone critically unexamined. In the belief that people in ever-increasing numbers are turning to the media for their understanding of evil, this lively and provocative collection of essays addresses the changing representation of evil in a broad spectrum of films and television programmes. Written in refreshingly accessible and de-jargonised prose, the essays bring to bear a variety of philosophical and critical perspectives on works ranging from the cinema of famed director Alfred Hitchcock and the preternatural horror films *Halloween* and *Friday the 13th* to the understated documentary *Human Remains* and the television coverage of the immediate post-9/11 period. *The Changing Face of Evil in Film and Television* is for anyone interested in the moving-image representation of that pervasive yet highly misunderstood thing we call evil. Contents: Martin F. NORDEN: Introduction Matthew SOAR: *The Bite at the Beginning: Encoding Evil Through Film Title Design* Linda BRADLEY SALAMON: *Screening Evil in History: Rope, Compulsion, Scarface, Richard III* Mike FRANK: *The Radical Monism of Alfred Hitchcock* Cynthia FREELAND: *Natural Evil in the Horror Film: Alfred Hitchcock's The Birds* Matt HILLS and Steven Jay SCHNEIDER: *'The Devil Made Me Do It!': Representing Evil and Disarticulating Mind/Body in the Supernatural Serial Killer Film* Thomas HIBBS: *Virtue, Vice, and the Harry Potter Universe* Robin R. The Changing Face of Management in China Oct 04 2022 The main aim of this book is to examine a range of areas of Chinese management in the context of the local political, economic and social traditions and the global economy. According to some commentators, some elements of management are universal while other aspects are unique to a given context. Moreover, much of what we know about Chinese management today is drawn from studies conducted with quantitative methods and at macro level. Less is known of managers in China in managing specific issues at work. This book adds to the existing body of knowledge by analysing current key strategic, as well as functional areas and issues facing Chinese managers trying to compete more effectively in the global market. In addition, the 'voice' of local managers is heard

The Changing Face of Academic Life Dec 14 2020 Bringing together an international line-up of contributors, this collection provides a

transnational examination of recent developments within the academic profession in the light of changes to higher education systems, globalization and marketization.

The Changing Face of Corpus Linguistics Jun 27 2019 This volume is witness to a spirited and fruitful period in the evolution of corpus linguistics. In twenty-two articles written by established corpus linguists, members of the ICAME (International Computer Archive of Modern and Mediaeval English) association, this new volume brings the reader up to date with the cycle of activities which make up this field of study as it is today, dealing with corpus creation, language varieties, diachronic corpus study from the past to present, present-day synchronic corpus study, the web as corpus, and corpus linguistics and grammatical theory. It thus serves as a valuable guide to the state of the art for linguistic researchers, teachers and language learners of all persuasions. After over twenty years of evolution, corpus linguistics has matured, incorporating nowadays not just small, medium and large primary corpus building but also specialised and multi-dimensional secondary corpus building; not just corpus analysis, but also corpus evaluation; not just an initial application of theory, but self-reflection and a new concern with theory in the light of experience. The volume also highlights the growing emphasis on language as a changing phenomenon, both in terms of established historical study and the newer short-range diachronic study of 20th century and current English; and the growing area of overlap between these two. Another section of the volume illustrates the recent changes in the definition of 'corpus' which have come about due to the emergence of new technologies and in particular of the availability of texts on the world wide web. The volume culminates in the contributions by a group of corpus grammarians to a timely and novel discussion panel on the relationship between corpus linguistics and grammatical theory.

The Changing Face of Home Apr 17 2021 The children of immigrants account for the fastest growing segment of the U.S. population under eighteen years old—one out of every five children in the United States. Will this generation of immigrant children follow the path of earlier waves of immigrants and gradually assimilate into mainstream American life, or does the global nature of the contemporary world mean that the trajectory of today's immigrants will be fundamentally different? Rather than severing their ties to their home countries, many immigrants today sustain economic, political, and religious ties to their homelands, even as they work, vote, and pray in the countries that receive them. *The Changing Face of Home* is the first book to examine the extent to which the children of immigrants engage in such transnational practices. Because most second generation immigrants are still young, there is much debate among immigration scholars about the extent to which these children will engage in transnational practices in the future. While the contributors to this volume find some evidence of transnationalism among the children of immigrants, they disagree over whether these activities will have any long-term effects. Part I of the volume explores how the practice and consequences of transnationalism vary among different groups. Contributors Philip Kasinitz, Mary Waters, and John Mollenkopf use findings from their large study of immigrant communities in New York City to show how both distance and politics play important roles in determining levels of transnational activity. For example, many Latin American and Caribbean immigrants are "circular migrants" spending much time in both their home countries and the United States, while Russian Jews and Chinese immigrants have far less contact of any kind with their homelands. In Part II, the contributors comment on these findings, offering suggestions for reconceptualizing the issue and bridging analytical differences. In her chapter, Nancy Foner makes valuable comparisons with past waves of immigrants as a way of understanding the conditions that may foster or mitigate transnationalism among today's immigrants. The final set of chapters examines how

home and host country value systems shape how second generation immigrants construct their identities, and the economic, social, and political communities to which they ultimately express allegiance. *The Changing Face of Home* presents an important first round of research and dialogue on the activities and identities of the second generation vis-a-vis their ancestral homelands, and raises important questions for future research.

The Changing Face of Corruption in the Asia Pacific Nov 05 2022 *The Changing Face of Corruption in the Asia Pacific: Current Perspectives and Future Challenges* is a contemporary analysis of corruption in the Asia-Pacific region. Bringing academicians and practitioners together, contributors to this book discuss the current perspectives of corruption's challenges in both theory and practice, and what the future challenges will be in addressing corruption's proliferation in the region. Includes viewpoints from both practitioners and academic contributors on corruption in the Asia Pacific region Offers a strong theoretical background together with the practical experience of contributors Explores what the future challenges will be in addressing corruption's proliferation in the region Aimed at both the academic and professional audience

The Changing Face of Empire Apr 29 2022 Following the failures of the Iraq and Afghan wars, as well as "military lite" methods and counterinsurgency, the Pentagon is pioneering a new brand of global warfare predicated on special ops, drones, spy games, civilian soldiers, and cyberwarfare. It may sound like a safer, saner war-fighting. In reality, it will prove anything but, as Turse's pathbreaking reportage makes clear.

The Changing Face of God Mar 17 2021 "Does the face of God change? Years ago I would have said, 'No.' Countless hymns, passage of Scripture and confessions of faith assert or imply the changelessness of God. To take issue with traditions that are centuries, if not millennia old, seemed to be daunting and misguided....But when the great professions of confidence in God harden into philosophical propositions, one is bound to ask: What difference would it make to say that God has only one face? Even if true in some sense, the fact of the matter is that features each of us would count as necessary and changeless would be a matter of considerable debate." - From the Introduction In 1998/99 five scholars presented lectures at Washington National Cathedral about our images of God and what difference they make. This book, and its companion videos, will allow parish study groups and individuals to consider and discuss the viewpoints of Marcus Borg, Karen Armstrong, Jack Miles, James Cone, and Andrew Sung Park.

The Changing Face of Medicine May 19 2021 The number of women practicing medicine in the United States has grown steadily since the late 1960s, with women now roughly at parity with men among entering medical students. Why did so many women enter American medicine? How are women faring, professionally and personally, once they become physicians? Are women transforming the way medicine is practiced? To answer these questions, *The Changing Face of Medicine* draws on a wide array of sources, including interviews with women physicians and surveys of medical students and practitioners. The analysis is set in the twin contexts of a rapidly evolving medical system and profound shifts in gender roles in American society. Throughout the book, Ann K. Boulis and Jerry A. Jacobs critically examine common assumptions about women in medicine. For example, they find that women's entry into medicine has less to do with the decline in status of the profession and more to do with changes in women's roles in contemporary society. Women physicians' families are becoming more and more like those of other working women. Still, disparities in terms of specialty, practice ownership, academic rank, and leadership roles endure, and barriers to opportunity persist. Along the way, Boulis and Jacobs address a host of issues, among them dual-physician marriages, specialty

choice, time spent with patients, altruism versus materialism, and how physicians combine work and family. Women's presence in American medicine will continue to grow beyond the 50 percent mark, but the authors question whether this change by itself will make American medicine more caring and more patient centered. The future direction of the profession will depend on whether women doctors will lead the effort to chart a new course for health care delivery in the United States.

The Changing Face of War Jul 01 2022 A provocative look at how war has changed over the course of the past century reveals how twentieth-century warfare evolved from its historical predecessors, as well as what terrorism and other modern-day phenomena mean in terms of the future of war. Reprint. 10,000 first printing.

The Changing Face of Horror Feb 25 2022 This insightful study explores the enthralling world of the fantastic short story in France. Born in the early 1800's of the enormous popularity of the works of E.T.A. Hoffmann, the genre flourished again toward the end of the century. The aesthetics of the two periods are quite distinct, the first reflecting the technique of Hoffmann and the second the intervening influence of the equally popular stories of Edgar Allan Poe. The author examines this change from the point of view of the contemporary reader. Of particular value are his textual analyses that demonstrate the differences between the two periods.

The Changing Face of Power Nov 24 2021 The Changing Face of Power explores the power, influence, and visibility of the new generation of Latinx leaders and their profound impact on the trajectory of the United States. It examines the contributions of Millennial and Generation Z Latinx leaders to our collective future. Claudia Alarco Alarco focuses on education, voice, and action in her in-depth interviews with Latinx trendsetters and leaders who have overcome obstacles in their lifetimes and who have used these moments to spur change in their communities and beyond. She opens the door for a conversation that confronts bias and anti-Blackness within the Latinx community and highlights the new generation of Latinx leaders at the forefront of combatting these divisions as they form a more inclusive, progressive identity. Claudia Alarco Alarco's voice and capacity to share her interviewees' experiences is relatable, impactful, and motivational. The Changing Face of Power marks the beginning of a conversation about the undeniable power and influence that young, dynamic Latinx leaders hold in American society today and for the many years to come.

The Changing Face Of Norwich Aug 29 2019 Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing many of these classic works in affordable, high quality, modern editions, using the original text and artwork.

The Changing Face of Korean Management Mar 29 2022 Part of the successful Routledge 'Working in Asia' series, The Changing Face of Korean Management focuses on a country that is predicted by some experts to become the world's third richest by 2025. South Korea, with its thriving telecommunications and automotive industries, and increasing trade links with China, survived the 1997 Asian Economic Crisis better than most. This important textbook explores the key areas of management in this pivotal country in the region, including: Human Resource Management Marketing Operations Finance Strategy Overseas affiliates Small firms and entrepreneurship Women Including case studies and interviews with front-line Korean managers to enable a real 'voice' to emerge, and written by native academics, this is a complete analysis of the current state of management structures in South Korea. It is important reading for all students of business and management interested in Asia.

The Changing Face of Higher Education Sep 03 2022 Over the last decade, a heated debate has raged in the US and the UK over whether the humanities are in crisis, and, if there is one, what form this crisis takes and what the response should be. Questioning how there can be such disagreement over a fundamental point, *The Changing Face of Higher Education* explores this debate, asking whether the humanities are in crisis after all by objectively evaluating the evidence at hand, and opening the debate up to a global scale by applying the questions to twelve countries from different continents. Each carefully chosen contributor considers the debate from the perspective of a different country. The chapters present data on funding, student enrolment in the humanities, whether the share of total enrolment in this area is falling, and answer the following questions: What does each country mean by the 'humanities'? Is there a 'crisis' in the humanities in this country? What are the causes for the crisis? What are the implications for the humanities disciplines? Uniquely offering an objective evaluation of whether this crisis exists, the book will appeal to international humanities and higher education communities and policy-makers, including postgraduate students and academics.

The Changing Face of Japanese Management Dec 02 2019 The practice and perceptions of Japanese management are undergoing fundamental change. This book sets out to identify the essential currents of change and explain how and why these impinge on the experience of managers in Japan.

The Changing Face of Christianity Jul 29 2019 Over the past century, Christianity's place and role in the world have changed dramatically. In 1900, 80 percent of the world's Christians lived in Europe and North America. Today, more than 60 percent of the world's Christians live outside of that region. This change calls for a reexamination of the way the story of Christianity is told, the methodological tools for its analysis, and its modes of expression. Perhaps most significant is the role of Africa as the new Christian heartland. The questions and answers about Christianity and its contemporary mission now being developed in the African churches will have enormous influence in the years to come. This volume offers nine new essays addressing this sea-change and its importance for the future of Christianity. Some contributions consider the development of "non-Western" forms of Christianity, others look at the impact of these new Christianities in the West. The authors cover a wide range of topics, from the integration of witchcraft and Christianity in Nigeria and the peacemaking role of churches in Mozambique to the American Baptist reception of Asian Christianity. *The Changing Face of Christianity* shows the striking cultural differences between the new world Christianity and its western counterpart. But with so many new immigrants in Europe and North America, the faith's fault lines are not purely geographical. The new Christianity now thrives in American and European settings, and northerners need to know this faith better. At stake is their ability to be good neighbors-and perhaps to be good Christian citizens of the world.

The Changing Face of Management in China Feb 02 2020 China is one of the fastest developing emerging economies in the world today. The country has a huge influence on a global level, both politically and economically. Despite this, very few books cover both the full range of management functions, and the key issues facing managers in this unique business environment. *The Changing Face of Management in China* explores the key challenges facing businesses and managers in China, across management functions, as well as across a range of sectors and organization types. Written by prominent scholars with direct experience in this market, this book adds to the existing body of knowledge by examining a range of areas of Chinese management in the context of local political, economic and social traditions, and the global economy.

Part of the successful Working in Asia series, this book includes case studies that allow the voices of local managers to be heard, as well as extensive bibliographies pointing students and researchers to the most up-to-date sources of information in this important area.

The Changing Face of Innovation Aug 02 2022 This book provides a brief overview of the recent trends in innovations. Early inventions/innovations that began in Asia (i.e., compass, paper, gunpowder and printing) spread to the Atlantic (Europe and USA) by land and sea routes. However, with population growth, economic expansion, availability of skilled researchers and lower cost of research in Asia Pacific, there has been a shift in innovation activities in this region. There has been a discernable trend of innovation (R&D) in countries like Japan, Korea, China, India and Singapore. This book attempts to create awareness of this trend and hopes to motivate business leaders and policy makers to take advantage of this shifting trend, as well as to encourage more global collaboration in innovations to face societal challenges in the 21st century.

Spin Dictators Mar 05 2020 Spin Dictators traces how leaders such as Singapore's Lee Kuan Yew and Peru's Alberto Fujimori pioneered less violent, more covert, and more effective methods of monopolizing power. The book reveals why most of today's authoritarians are spin dictators-and how they differ from the remaining "fear dictators" such as Kim Jong-un and Bashar al-Assad, as well as from masters of high-tech repression like Xi Jinping.

The Changing Face of Management in Thailand Feb 13 2021 In the decade following the Asian financial crisis of 1997-1998, the management of organizations in Thailand has undergone significant change and development. The Changing Face of Management in Thailand examines in-depth the development of management during this pivotal period in the country's recent history. The book draws together an impressive assortment of scholars, consultants and practitioners, whose experience and expertise significantly enhance our knowledge and understanding of this complex, multi-faceted Asian economy. The book is divided into 3 main sections: an examination of the political, economic, social and technological changes from 1997-2008 specialist chapters that contextualise these developments from the marketing, HR and finance perspectives concluding sections focusing on public sector organizations, women managers, corporate governance, e-communication and the 'Thailand Brand'. With a wealth of vignettes, anecdotes and illustrative quotations bringing each chapter to life, this volume offers a refreshing, updated and in-depth analysis of this rich, diverse and fascinating nation.

The Changing Face of Portrait Photography Jan 27 2022 A richly illustrated volume examines the portrait work of Dorthea Lange, Richard Avedon, Robert Weingarten, George K. Warren, Julia Margaret Cameron, the Barr & Wright Studio, Gertrude Käsebier, Nickolas Muray, Henry Horenstein, and Lauren Greenfield. The Changing Face of Portrait Photography explores the power of the portrait and the role it plays in our personal and national identities. The Changing Face of Portrait Photography explores ten groups of portraits selected from within the Smithsonian National Museum of American History's Photographic History Collection. The selections represent work by specific photographers with diverse relationships to portraiture, and through their sampling take a focused look at changing convention, theory, and technologies.

The Changing Face of Inequality Jul 09 2020 Originally published in 1983, The Changing Face of Inequality is the first systematic social history of a major American city undergoing industrialization. Zunz examines Detroit's evolution between 1880 and 1920 and discovers the

ways in which ethnic and class relations profoundly altered its urban scene. Stunning in scope, this work makes a major contribution to our understanding of twentieth-century cities.

The Changing Face of China Nov 12 2020 Where is China heading in the 21st century? Can its Communist Party survive or is it being challenged by growing inequality and unrest? Will the US and China cooperate or compete in a dangerous future? Will China's economic boom be brought to a halt by environmental catastrophe? In this highly readable account, John Gittings provides the essential information to help answer these vital questions for the world. In the 60 years since Mao Zedong took the road to victory, China has undergone not one but two revolutions. The first swept away the old corrupt society and sought to build a 'spotless' new socialism behind closed doors; the second since Mao's death has focused on an economic agenda which accepts the goals of global capitalism. From Mao to the global market, Gittings charts this complex but epic tale and concludes with some hard questions for the future.

The Changing Face of Chinese Management Oct 31 2019 Chinese management has experienced a dramatic change in recent years. In many areas, established ideas about how Chinese management operates are oversimplified and outdated. This book sets out to provide a more realistic portrait of Chinese management today, and how it has changed dramatically over the past ten years. The portrait of contemporary Chinese management draws on extensive interviews with Chinese managers conducted by the authors. These provide a wealth of concrete illustrations of how managers deal on a daily basis with the opportunities and threats they face.

The Changing Face of Imperialism Sep 30 2019 This volume reiterates the relevance of imperialism in the present, as a continuous arrangement, from the early years of empire-colonies to the prevailing pattern of expropriation across the globe. While imperialism as an arrangement of exploitation has sustained over ages, measures deployed to achieve the goals have gone through variations, depending on the network of the prevailing power structure. Providing a historical as well as a conceptual account of imperialism in its 'classical' context, this collection brings to the fore an underlying unity which runs across the diverse pattern of imperialist order over time. Dealing with theory, the past and the contemporary, the study concludes by delving into the current conjuncture in Latin America, the United States and Asia. The Changing Face of Imperialism will provide fresh ideas for future research into the shifting patterns of expropriation – spanning the early years of sea-borne plunder and the empire-colonies of nineteenth-century to contemporary capitalism, which is rooted in neoliberalism, globalization and free market ideology. With contributions from major experts in the field, this book will be a significant intervention. It will be of interest to scholars and researchers of economics, politics, sociology and history, especially those dealing with imperial history and colonialism.

Innovating Women Aug 10 2020 From one of Time Magazine's 40 Most Influential Minds in Technology: women across the globe share stories of closing the tech industry's gender gap. Women in technology are on the rise in both power and numbers, but we need to accelerate that momentum if we want to "lean in" and close the gender gap. The future of technology depends on women and men working together at their full potential. For that to happen, it is vital that women feel welcomed, rewarded, and respected in tech sectors. Hailed by Foreign Policy Magazine as a "Top 100 Global Thinker," professor, researcher, and entrepreneur Vivek Wadhwa, alongside award-winning journalist Farai

Chideya, collect anecdotes and essays from female tech leaders around the world, sharing how their experiences in innovative industries frame the future of entrepreneurship. With interviews and essays from hundreds of women in STEM fields, including Anousheh Ansari, the first female private sector space explorer; former Google[X] VP and current CTO of the USA, Megan Smith; Ory Okolloh of the Omidyar Network; CEO of Nanobiosym Dr. Anita Goel, MD, PhD.; and venture capitalist Heidi Roizen, *Innovating Women* offers perspectives on the challenges that women face, the strategies that they employ in the workplace, and how organizations can support the career advancement of women.

The Changing Face of Women Managers in Asia Sep 10 2020 The influence of Asian cultures and religious traditions has often been used to explain Asian women's under-utilisation and under-representation in management. This book examines the influence of culture and tradition on organisational and management practices, and how these affect the progress of women in management in Asian economies. This book, written by prominent scholars of the Asian region, explores which organizational and management practices are universal, and which other aspects (such as human resource practices) are culture specific, and how these in turn affect the advancement / representation of women in the Asian region. Higher educational levels, falling fertility rates and sectoral changes have contributed to women's increasing participation in the labour force. As women become more educated and qualified for managerial positions, the number of Asian women managers and executives is predicted to rise over the next decade. The Asian economies covered by this up-to-date collection have undergone rapid economic transformation. Until now, most research on contemporary women managers has been drawn from studies conducted in developed countries. Covering case studies in China, Hong Kong, Japan, Malaysia, Singapore, South Korea, Taiwan, Thailand and Vietnam, this book uses different perspectives to examine the constraints, opportunities and challenges for women managers in the Asian context and presents an update on their progress in management.

New Old World Jan 03 2020 After several years documenting the rise of China, award-winning Indian journalist Pallavi Aiyar moved to Brussels, the headquarters of the European Union, to discover a Europe plagued by a financial crisis, and unsure of its place in a world where new Asian challengers are eroding its old and comfortable certainties. With a lively mix of memoir, reportage and analysis, Aiyar takes the reader on a romp across the continent, meeting workaholic Indian diamond merchants in Antwerp, upstart Chinese wine barons in Bordeaux,

Sikh farmhands in the Italian countryside, and Indian engineers running offshore energy turbines in Belgium. In the Europe of today everything is in flux, as she discovers through conversations with Muslim immigrants struggling to define their identities, the austere bosses of Germany's world-beating companies, and bewildered Eurocrats struggling to keep the European Union from splitting apart. Examining the diverse challenges the continent faces today—among them, bloated welfare states, the accommodation of Islam, the European ambitions of Indian and Chinese entrepreneurs, and ancient intra-cultural fissures — New Old World offers a panoramic look at Europe's first-world crisis from a unique Asian perspective.

Changing Face of the Law Jun 07 2020 Abstruse legal phrases often inform our understanding of intricate cases. But those situations are also led, not outpaced, by basic equity principles of life itself. What statisticians call the law of large numbers and intelligence analysts in the world of science fiction know as the Bergofsky Principle is our structural faith in empirical knowledge. In this day, this process of experience and learning has moved into an international and interdisciplinary scale. That idea cannot be lost on us. Around the world, business and political leaders work together to realize common goals. But how does the rule of law impact these developments in strategy and technology, sustainable development, and access to justice? Armed with realism, *Changing Face of the Law: A Global Perspective* actively explores the legal traditions of the United States, India, and other commonwealth nations. A budding lawyer, author Riddhi Dasgupta provides an insider's look at the link between the rule of law and corporate ethics, the law's imagination, and our global dialogue. Lawful governance, or Gandhi's swaraj, is our linchpin. It appreciates the complexities of life and insightfully examines the modern perspectives of law. Giving us examples of this approach in the areas of free thought, federalism and development, and the law's role as a teacher, Dasgupta pinpoints the "active liberty" of the world's citizens—their own governance—as the key issue. Every generation has its challenges, and ours lie in combating the emergent economic, health, corruption, and terrorism crises through the rule of law. Each sector in our society (from multinational corporations to social groups) is a vital piece of the puzzle. There is no doubt that the success or failure of this collaboration will measure our legacy.
