The Works of Benjamin Disraeli, Earl of Beaconsfield: Endymion, v.2. Miscellanea Oct 02 2020

From Airline Reservations to Sonic the Hedgehog Feb 06 2021 A business history of the software industry from the days of custom programming to the age of mass-market software and video games. From its first glimmerings in the 1950s, the software industry has evolved to become the fourth largest industrial sector of the US economy. Starting with a handful of software contractors who produced specialized programs for the few existing machines, the industry grew to include producers of corporate software packages and then makers of mass-market products and recreational software. This book tells the story of each of these types of firm, focusing on the products they developed, the business models they followed, and the markets they served. By describing the breadth of this industry, Martin Campbell-Kelly corrects the popular misconception that one firm is at the center of the software universe. He also tells the story of lucrative software products such as IBM's CICS and SAP's R/3, which, though little known to the general public, lie at the heart of today's information infrastructure. With its wealth of industry data and its thoughtful judgments, this book will become a starting point for all future investigations of this fundamental component of computer history.

Manual of Clinical Anesthesiology Oct 22 2019 This portable manual provides a highly visual, rapid-reference resource that presents anesthesia in a practical and clinically-focused manner. Manual of Clinical Anesthesiology guides anesthesiologists in rapid and focused clinical decision making with its practical, clinically-focused chapters on anesthesia management. This highly formatted manual includes chapter summaries to highlight key points discussed within each chapter, color-coded sections to quickly identify information, and icons calling out pearls and pitfalls. Chapters are short and easy to read. The book includes four atlases for rapid reference: Atlas of Transesophageal Echocardiography, Atlas of Regional Anesthesia, Atlas of Anesthesia Procedures, and Crisis Management Cognitive Aids. There is also a Drug Dosing pull-out card for rapid reference. A section covering Anesthesia Phrases in Foreign Languages will enhance communication with non-English speaking patients in situations where an interpreter may not be available.

Intelligent Computing, Communication and Devices Jul 11 2021 In the history of mankind, three revolutions which impact the human life are tool-making revolution, agricultural revolution and industrial revolution. They have transformed not only the economy and civilization but the overall development of the human society. Probably, intelligence revolution is the next revolution, which the society will perceive in the next 10 years. ICCD-2014 covers all dimensions of intelligent sciences, i.e. Intelligent Computing, Intelligent Communication and Intelligent Devices. This volume covers contributions from Intelligent Computing, areas such as Intelligent and Distributed Computing, Intelligent Grid & Cloud Computing, Internet of Things, Soft Computing and Engineering Applications, Data Mining and Knowledge discovery, Semantic and Web Technology, and Bio-Informatics. This volume also covers paper from Intelligent Device areas such as Embedded Systems, RFID, VLSI Design & Electronic Devices, Analog and Mixed-Signal IC Design and Testing, Solar Cells and Photonics, Nano Devices and Intelligent Robotics.

Oskar Schindler Jan 17 2022 Spy, businessman, bon vivant. Nazi Party member, Righteous Gentile. This was Oskar Schindler, the controversial man who saved eleven hundred Jews during the Holocaust but struggled afterwards to rebuild his life and gain international recognition for his wartime deeds. David Crowe examines every phase of Schindler's life in this landmark biography, presenting a savior of mythic proportions who was also an opportunist and spy who helped Nazi Germany conquer Poland. Schindler is best known for saving over a thousand Jews by putting them on the famed "Schindler's List" and then transferring them to his factory in today's Czech Republic. In reality, Schindler played only a minor role in the creation of the list through no fault of his own. Plagued by local efforts to stop the movement of Jewish workers from his factory in Kraków his new one in Briz, and his arrest by the SS who were investigating corruption charges against the infamous Amon Gö Schindler had little say or control over his famous "List." The tale of how the "List" was really prepared is one of the most intriguing parts of the Schindler story that Crowe tells here for the first time. Forced into exile after the war, success continually eluded Schindler and he died in very poor health in 1974. He remained a controversial figure, even in death, particularly after Emilie Schindler, his wife of forty-six years, began to criticize her husband after the appearance of Steven Spielberg's film in 1993. In *Oskar Schindler*, Crowe steps beyond the mythology that has grown up around the story of Oskar Schindler and looks at the life and work of this man whom one prominent Schindler Jew described as "an extraordinary man in extraordinary times."

Бизнес-журнал, 2005/04 May 21 2022 «Бизнес-журнал» (www.b-mag.ru) – самое массовое всероссийское деловое издание, адресованное предпринимателям, управляющим собственникам и топ-менеджерам компаний. Выходит ежемесячно в более чем 20 регионах России общим тиражом около 100 тысяч экземпляров. Журнал является открытой площадкой для обмена предпринимательским опытом, для распространения информации о лучших деловых практиках и популяризации современных управленческих, финансовых и маркетинговых инструментов. Основное внимание редакция уделяет публикациям, затрагивающим практические аспекты ведения бизнеса в России.

Bet The Farm Jun 29 2020 Olivia Brent has one summer to save the dairy farm she just inherited. But there's one problem, and it's not her lactose intolerance. Jake Milovic. The brooding farmhand has inherited exactly fifty percent of Brent Farm, and he's so convinced the city girl can't work the land, he bets she can't save it in a summer. Determined to prove him wrong, Olivia accepts what might be the dumbest wager of her life. His strategy to win seems simple: follow her around, shirtlessly distracting her between bouts of relentless taunting. And it's effective-if his dark eyes and rare smiles aren't enough to sidetrack her, the sweaty, rolling topography of the manbeast's body would do the trick. What they don't know: they'll have to weather more than each other. Mysterious circumstances throw the farm into disarray, and with the dairy farm in danger, Olivia and Jake have to work together. But when they do, there's more to fear than either of them imagined. Because now their hearts are on the line, and the farm won't be the only casualty if they fail.

Imagined Democracies Mar 07 2021 This book proposes a revisionist approach to democratic politics. Yaron Ezrahi focuses on the creative unconscious collective imagination that generates ever-changing visions of legitimate power and authority, which compete for enactment and institutionalization in the political arena. If, in the past, political authority was grounded in fictions such as the divine right of kings, the laws of nature, historical determinism and scientism, today the space of democratic politics is filled with multiple alternative social imaginaries of the desirable political order. Exposure to electronic mass media has made contemporary democratic publics more aware that credible popular fictions have greater impact on shaping our political realities than do rational social choices or moral arguments. The pressing political question in contemporary democracy is, therefore, how to select and enact political fictions that promote peace and how to found the political order on checks and balances between alternative political imaginaries of freedom and justice.

How to Be an Academic Nov 22 2019 "Welcome to the world of university academics, where the Academic Hunger Games, fuelled by precarious employment conditions, is the new reality - a perpetual jostle for short-term contracts and the occasional plum job. But Inger Mewburn is here to tell you that life needn't be so grim. A veteran of the university 'gig economy', Mewburn - aka The Thesis Whisperer - is perfectly placed to reflect on her experience and offer a wealth of practical strategies to survive and thrive. Here, she deftly navigates the world of the working academic, from thesis and article writing and keeping motivation alive, to time management, research strategies, new technologies, applying for promotion, sexism in the workplace, writing grant applications, and deciding what to wear to give a keynote address. Constructive, inclusive, hands-on, and gloves-off, *How to be an Academic* is a survival manual for aspiring and practising academics that will confirm that no matter what your experience in academia, you are not alone."

1001+ Basic Phrases English - French Mar 27 2020 "1001+ Basic Phrases English - French" is a list of more than 1000 basic phrases translated from English to French. Phrases divided into sections such as numbers, colors, time, days, body, greeting, weather, shopping, health, emergency, restaurant and more.

Meteorological and Air Quality Models for Urban Areas Aug 20 2019 This book for the first time gives an overall view of the current situation in urbanization of meteorological and air quality models around the world. It discusses and makes recommendations on the best practice and strategy for urbanization of different types of meteorological and air quality models. Based on the selected presentations given at the COST728 workshop, the contributions are arranged in four parts: urban morphology and databases; parameterizations of urban canopy; strategy for urbanization of different types of models; and evaluation and city case studies / field studies. The chapters treat either dynamic (on wind and turbulent) and thermal effects (on temperature and energy in general). The final chapter of this volume summarizes the discussion and conclusions from the four main topics and provides recommendations and future requirements. This monograph is oriented towards numerical weather prediction and air quality modelling communities.

Maddy's Very Bad Day Dec 24 2019 Back Page Once again with this story I want the reader to be able to relate to what kids feel and struggle with in life. I also want them curious about how real is God and His word. Maddy is clearly a leader in this series of books, but in this book at first she feels like a failure. As she sees her unfaithfulness in obeying God, she discovers God is still faithful to her. She has learned something new about God that will impact her the rest of her life-a new side of His love when she discovers God even loves her on her very bad days. This will allow Maddy to always run to God no matter how she feels, knowing He will always be there. This book will speak to our children's hearts and minds the same way God speaks to us, as we are all learning to come to him as little children.

Stages of Meditation Sep 13 2021 A translation of the ancient classic Stages of Meditation, by Kamalashila, with commentary from everyone's favorite Buddhist teacher, the Dalai Lama. The Dalai Lama explains the principles of meditation in a practice-oriented format especially suited to Westerners. Based upon the middle section of the Bhavanakrama by Kamalashila—a translation of which is included—this is the most extensive commentary given by the Dalai Lama on this concise but important meditation handbook. It is a favorite text of the Dalai Lama, and he often takes the opportunity to give teachings on it to audiences throughout the world. In his words, "This text can be like a key that opens the door to all other major Buddhist scriptures." Topics include the nature of mind, how to develop compassion and loving-kindness, calm abiding wisdom, and how to establish a union of calm abiding and special insight.

The Judas Mandala Jul 19 2019 Early in the 21st century, after the Great Recession, poet and young mother Maggie Roche is harassed by a lovely woman, Sriyani, and a famous neuroscientist, David Elfield. She doesn't know it yet, but she is about to become history's first time traveler. When agents from the far future attempt to kill her, in baffled fury she slingshots herself into the 7th millennium. Instantly she's on the run from the Ull Lords and their virtual reality devotees. These superbeings are cyborged humans constructed to live forever, with the ambition to rule the universe. Maggie is having none of this.

Encountering an earlier version of Sriyani, her fated future role in the formation of the multiverse falls upon her shoulder like a thunderous lightningbolt. A Being at the end of time she calls the Something wages endless war with its foes, the Ull Lords. Torn from her beloved child and her own time, Maggie must choose whether to accept this alienating path into an alternative cosmic history fit for a poet and a free woman.

Explorer Repair Manual Jun 17 2019 On board diagnostics. 1997 model year (UN) Explorer. Related to the Ford Explorer repair manual (Part no. WM312). The 1997 service manual provides information covering emissions for 1997 Ford Motor Company trucks. Complete emissions related diagnostic procedures for all affected systems or components that are affected are covered in this manual. The descriptions and specifications contained in this manual were in effect at the time this manual was approved for printing.

Tap Roots Nov 03 2020 In the second novel of the Dabney family saga, Sam'l Dabney is no longer "ol' man Dabney's brat" but has become a rich and successful aristocrat of such great influence that some call him the Father of Mississippi and Alabama. Old and dying, he and Tishomingo, a prince of the Choctaws, are all who are left of the group who fled the Promised Land. After Sam's death, the Dabney family, strong, greedy, and imbued with raw courage, jeers at fate and dares the impossible. They secede from Mississippi, organize an independent republic called the Free State of Lebanon, and wage a no-quarter war against the might and millions of the Confederacy at a time when the Union seemed doomed. Some die in battle, others on the gallows, and only a few live to see the tiny spark they kindled blaze into a fire for freedom. The family is led by Sam's son, Hoab, a shouting abolitionist and religious zealot, whose secret is still carefully guarded and, if ever revealed, may rock the South. He and wife, Shellie, and their children — Cormac, red-headed Moma, in spirit much like her great-aunt, Honoria, and the twins Aven and Bruce continue Sam's legacy — the tap root that pushed through the loam and into the red clay bed of the valley and from which the Dabney legacy continues to flourish. They are joined by others — neighbor Claiborne MacIvor, who loved two Dabney women; Keith Alexander, the morose and unbelievably handsome Black Knight of Vengeance; and Reverend Kirkland, the pudgy little preacher who told a great denomination, "I'll see you in hell before I surrender my rights. I am but a feeble ripple, but behind me comes the whirlwind." Tap Roots begins in 1858 and moves to a thunderous climax in 1865. The book is based on the true story of the "free state of Jones" in which the farmers and workmen of Jones County in Mississippi decide to succeed from both the United States and the Confederacy. In this part of the South there were few if any plantations, most people worked their own farms and held no slaves and they strongly resented being required "to fight a rich man's war". The majority of settlers were also of Scots-Irish descent and did not believe in slavery, so they decided to form a Republic of free men. Tap Roots was a best seller and later made into a film starring Susan Hayward.

Secrets of Cold War Technology Jan 05 2021 The death knell has struck. Wave Radio is dead. How have 70 years of Military Research succeeded in producing a completely new and superior communications technology? Radio History gives a stranger walk than paranoid writers ever tell! While citizens were watching television, military research was directed to create an amazing radiation technology far in advance of any system known. Currently and routinely utilised, it has remained a well guarded 'open secret' for decades. The proof patents and relevant research papers have just been retrieved. Facts quell hysteria, but Truth is stranger than fiction. Want the answers? The complete technical history of military projects will show the development of every relevant project preceding HAARP. Only the facts. No hysteria. Complete with communications and weapons patent citations, this book will forever change your view of world events and technology.

Mobile Web 2.0 Apr 08 2021 From basic concepts to research grade material, Mobile Web 2.0: Developing and Delivering Services to Mobile Devices provides complete and up-to-date coverage of the range of technical topics related to Mobile Web 2.0. It brings together the work of 51 pioneering experts from around the world who identify the major challenges in Mobile Web 2.0 applications and provide authoritative insight into many of their own innovations and advances in the field. To help you address contemporary challenges, the text details a conceptual framework that provides modeling facilities for context-aware, multi-channel Web applications. It compares various platforms for developing mobile services—from the developer and user perspectives—and explains how to use high-level modeling constructs to drive the application development process through automatic code generation. Proposes an expanded model of mobile application context Explores mobile social software as an Information and Communications Technology (ICT) Discusses the effect of context on mobile usability Through empirical study, the book tests a number of hypotheses on the use of software implementation technology and location context in mobile applications. It introduces Reusable End-User Customization (REUC)—a technique that allows users to adapt the layout of Web pages and automatically reapplies those preferences on subsequent visits. It also investigates the need for non-visual feedback with long system response times, particularly when downloading Web pages to mobile devices.

Underground Body Opus Apr 27 2020 "...learn what the world's top bodybuilders do to get lean and ripped—from thermogenic aids, thyroid hormone, and anti-catabolics to protein selection and macronutrient ratios...includes the top 50 drugs for dieting and a special section on diuretics for bodybuilding competitions"-- Back cover.

Document Analysis and Recognition – ICDAR 2021 Workshops Oct 26 2022 This book constitutes the proceedings of the international workshops co-located with the 16th International Conference on Document Analysis and Recognition, ICDAR 2021, held in Lausanne, Switzerland, in September 2021. The total of 59 full and 12 short papers presented in this book were carefully selected from 96 contributions and divided into two volumes. Part I contains 29 full and 4 short papers that stem from the following meetings: ICDAR 2021 Workshop on Graphics Recognition (GREC); ICDAR 2021 Workshop on Camera-Based Document Analysis and Recognition (CBDAR); ICDAR 2021 Workshop on Arabic and Derived Script Analysis and Recognition (ASAR 2021); ICDAR 2021 Workshop on Computational Document Forensics (ICWDF). The main topics of the contributions are document processing; physical and logical layout analysis; text and symbol recognition; handwriting recognition; signature verification and document forensics, and others.

Alibis Jul 31 2020 A Boston Globe Best Nonfiction Book of 2011 Celebrated as one of the most poignant stylists of his generation, André Aciman has written a luminous series of linked essays about time, place, identity, and art that show him at his very finest. From beautiful and moving pieces about the memory evoked by the scent of lavender; to meditations on cities like Barcelona, Rome, Paris, and New York; to his sheer ability to unearth life secrets from an ordinary street corner, Alibis reminds the reader that Aciman is a master of the personal essay.

Sonic Possible Worlds Dec 04 2020 An inspired application of Possible World theory to approach and interpret the acoustic environment, music and sound art.

Awakening of the Soul Jun 22 2022 In 2002, Grace J. Scott began to receive messages from those beyond the grave. Grace felt it her duty to record their voices, their thoughts, and even their warnings. Awakening of the Soul is the amazing result. This intriguing collection of channeled thoughts from souls in heaven, other planetary systems, and other universes will benefit those seeking spiritual growth as well as those wanting information about preparing for upcoming Earth changes. Much of the material is packed with information and requires time to read and digest while other material is simple and easily understood. Presented in chronological order as received in reflexology sessions, the conversations are completely original, unedited, and unorganized, straight from the spirit itself. Some spirits channeled big lessons for the general public or gave messages to individuals while some explained disasters, politics, wars, dreams, and events in our daily lives. But all of the souls have one thing in common: they bring news that Earth is cleansing itself at a rapid pace, and they are here to assist us through the cleansing and beyond. Epic in scope, Awakening of the Soul is a vital tool for those looking to the future and to the fate of Earth itself.
