The Monster of Florence Jun 03 2020 In the nonfiction tradition of John Berendt and Erik Larson, the author of the #1 NYT bestseller *The Lost City of the Monkey God* presents a gripping account of crime and punishment in the lush hills surrounding Florence as he seeks to uncover one of the most infamous figures in Italian history. In 2000, Douglas Preston fulfilled a dream to move his family to Italy. Then he discovered that the olive grove in front of their 14th century farmhouse had been the scene of the most infamous double-murders in Italian history, committed by a serial killer known as the Monster of Florence. Preston, intrigued, meets Italian investigative journalist Mario Spezi to learn more. This is the true story of their search for--and identification of--the man they believe committed the crimes, and their chilling interview with him. And then, in a strange twist of fate, Preston and Spezi themselves become targets of the police investigation. Preston has his phone tapped, is interrogated, and told to leave the country. Spezi fares worse: he is thrown into Italy's grim Capanne prison, accused of being the Monster of Florence himself. Like one of Preston's thrillers, *The Monster of Florence*, tells a remarkable and harrowing story involving murder, mutilation, and suicide--and at the center of it, Preston and Spezi, caught in a bizarre prosecutorial vendetta.

Bloodhound in Blue Apr 25 2022 He was born in rural Missouri, and it was immediately clear that he was different from the rest. He caught his first criminal when he was just two years old. By his sixth birthday, he had located burglars, missing children, drug dealers, rapists, and murderers—including Utah's most wanted criminal. Known to friends as JJ, to law enforcement as Michael Serio's partner, and to captured criminals as "that damned dog," Jessie Jr., an exceptionally talented bloodhound, bayed like a sea lion that had swallowed a fog horn. Before JJ, few police departments in the West used bloodhounds, and none in Utah. But just when JJ was finally convincing naysayers, he and Officer Serio ran into something worse than resistance: the despair of failure amid high hope. JJ had been tracking Brian David Mitchell, the man who abducted Elizabeth Smart, when he was pulled off the track. Elizabeth later told investigators that on the day she was kidnapped she heard a dog baying in the woods behind her. In almost nine years of service, JJ helped apprehend nearly 300 criminal suspects in the Salt Lake City area. Here is his remarkable story, fleas and all. Dying Bites Nov 01 2022 DD Barant launches *The Bloodhound Files with Dying Bites*—a "fresh and original take

on urban fantasy" (Romantic Times) with a heroine who's "remarkable, strong-willed and smart" (Publishers Weekly). Her job description is the "tracking and apprehension of mentally-fractured killers." What this really means in FBI profiler Jace Valchek's brave new world—one in which only one percent of the population is human—is that a woman's work is never done. And reality is getting stranger every day... Jace has been ripped from her reality by David Cassius, the vampire head of the NSA. He knows that she's the best there in the business, and David needs her help in solving a series of gruesome murders of vampires and werewolves. David's world—one that also includes lycanthropes and golems—is one with little knowledge of mental illness. An insane serial killer is a threat the NSA has no experience with. But Jace does. Stranded in a reality where Bela Lugosi is a bigger box office draw than Bruce Willis and every full moon is Mardi Gras, Jace must now hunt down a fellow human before he brings the entire planet to the brink of madness. Or she may never see her own world again...

Baseless Oct 27 2019 "Staggeringly good." —Counterpunch A major new work, a hybrid of history, journalism, and memoir, about the modern Freedom of Information Act—FOIA—and the horrifying, decades-old government misdeeds that it is unable to demystify, from one of America's most celebrated writers Eight years ago, while investigating the possibility that the United States had used biological weapons in the Korean War, Nicholson Baker requested a series of Air Force documents from the early 1950s under the provisions of the Freedom of Information Act. Years went by, and he got no response. Rather than wait forever, Baker set out to keep a personal journal of what it feels like to try to write about major historical events in a world of pervasive redactions, withheld records, and glacially slow governmental responses. The result is one of the most original and daring works of nonfiction in recent memory, a singular and mesmerizing narrative that tunnels into the history of some of the darkest and most shameful plans and projects of the CIA, the Air Force, and the presidencies of Harry Truman and Dwight Eisenhower. In his lucid and unassuming style, Baker assembles what he learns, piece by piece, about Project Baseless, a crash Pentagon program begun in the early fifties that aimed to achieve "an Air Force-wide combat capability in biological and chemical warfare at the earliest possible date." Along the way, he unearths stories of balloons carrying crop disease, leaflet bombs filled with feathers, suicidal scientists, leaky centrifuges, paranoid political-warfare tacticians, insane experiments on animals and humans, weaponized ticks, ferocious propaganda battles with China, and cover and deception plans meant to trick the Kremlin into ramping up its germ-warfare program. At the same time, Baker tells the stories of the heroic journalists and lawyers who have devoted their energies to wresting documentary evidence from government repositories, and he shares anecdotes from his daily life in Maine feeding his dogs and watching the morning light gather on the horizon. The result is an astonishing and utterly disarming story about waiting, bureaucracy, the horrors of war, and, above all, the cruel secrets that the United States government seems determined to keep forever from its citizens.
