*Art and Artists of Twentieth-century China* May 14 2021 "Sullivan presents a wealth of material that has never before appeared in a Western language. I expect it will be the standard book on twentieth-century Chinese art for the foreseeable future."--Julia F. Andrews, author of *Painters and Politics in the People's Republic of China* "A most sympathetic and useful guide to twentieth-century Chinese art. Long the leading scholar on the subject, Professor Sullivan has presented a lucid account of a most dramatic chapter in Chinese art in a complex interplay of aesthetics, politics, cultural, and social history."--Wen C. Fong, Princeton University "So much of China's art in the twentieth century has to do with artistic (and political) ideas from the West that is is appropriate that one of its first comprehensive histories should be written by a Western scholar--especially one who has known personally many of China's leading artistic figures of the last fifty years. Not only does Professor Sullivan tell the complex story of twentieth century China art with lucidity and style, his learned text is also illuminated with witty anecdotes and incisive observations that can only come from an insider."--Johnson Chang (Chang Tson-zung), Director, Hanart Tz Gallery, Hong Kong

*A Collector's View of Collecting Art Jul 16 2021 This book was prepared by researching publicly available information, selected references, published books and from information obtained from artists. I have had the pleasure of knowing many of the painters and sculptors personally and over many decades; much of the information presented in this book is from them. The art depicted was all in my collection, although some pieces have been sold, most have been gifted – donated to museums and other institutions – prior to the completion of this book. I thank all of the artists who created the art that has given me utmost pleasure over many years. I have wonderful memories of time spent with the artists who became my friends. Additionally, I thank all those who appreciated my art collection and helped with the downsizing. This painful experience was somehow lessened, as the art is now in good hands, to be enjoyed by many now and in future generations. Foremost, I acknowledge my wife, Jere, who has been a partner in my life; she is the one who has endured all the toils, trials and tribulations of my collecting art, and to share with me our great journey of the "Art of Living with Art."*

*Language Use in the Two-way Classroom Dec 09 2020 Based on an extended ethnographic study of a dual language (Spanish-English) kindergarten, this book takes a critical look at children's linguistic (and non-linguistic) interactions and the ways that teaching design can help or hinder language development. With a focus on official 'Spanish time', it explores the particular challenges of supporting the minority language use as well as the teacher's strategies for doing so. In bilingual classrooms, teachers' goals include bilingualism as well as academic achievement for all. The children may share these interests, but have their own agendas as well. This book explores the linguistic and social interactions that may help, or hinder, these multiple and sometimes conflicting agendas. How can teachers design educational practice that takes into consideration broader forces of language hegemony as well as children's immediate interests? "The numerous rich examples of the effectiveness of different strategies and practices within a variety of instructional contexts make this book essential reading for educators, parents, students and researchers interested in second language education. DePalma's findings will have important implications for program design, interventions, curriculum and instructional practices in second language learning programs." Kathryn Lindholm-Leary, San Jose State University, USA*
