Astronomy for Older Eyes Aug 06 2020 This book is for the aging amateur astronomy population, including newcomers to astronomy in their retirement and hobbyists who loved peering through a telescope as a child. Whether a novice or an experienced observer, the practice of astronomy differs over the years. This guide will extend the enjoyment of astronomy well into the Golden Years by addressing topics such as eye and overall health issues, recommendations on telescope equipment, and astronomy-related social activities especially suited for seniors. Many Baby-Boomers reaching retirement age are seeking new activities, and amateur astronomy is a perfect fit as a leisure time activity. Established backyard astronomers who began their love of astronomy in their youth, meanwhile, may face many physical and mental challenges in continuing their lifelong hobby as they age beyond their 55th birthdays. That perfect telescope purchased when they were thirty years old now suddenly at sixty years old feels like an immovable object in the living room. The 20/20 eyesight has given way to reading glasses or bifocals. Treasured eyepieces feel all wrong. Growing old is a natural process of life, but astronomy is timeless. With a little knowledge and some lifestyle adjustments, older astronomers can still enjoy backyard observing well into their seventies, eighties and even into their nineties.

Encyclopedia of Software Engineering Three-Volume Set (Print) May 03 2020 Software engineering requires specialized knowledge of a broad spectrum of topics, including the construction of software and the platforms, applications, and environments in which the software operates as well as an understanding of the people who build and use the software. Offering an authoritative perspective, the two volumes of the Encyclopedia of Software Engineering cover the entire multidisciplinary scope of this important field. More than 200 expert contributors and reviewers from industry and academia across 21 countries provide easy-to-read entries that cover software requirements, design, construction, testing, maintenance, configuration management, quality control, and software engineering management tools and methods. Editor Phillip A. Laplante uses the most universally recognized definition of the areas of relevance to software engineering, the Software Engineering Body of Knowledge (SWEBOK®), as a template for organizing the material. Also available in an electronic format, this encyclopedia supplies software engineering students, IT professionals, researchers, managers, and scholars with unrivaled coverage of the topics that encompass this ever-changing field. Also Available Online This Taylor & Francis encyclopedia is also available through online subscription, offering a variety of extra benefits for researchers, students, and librarians, including: Citation tracking and alerts Active reference linking Saved searches and marked lists HTML and PDF format options Contact Taylor and Francis for more information or to inquire about subscription options and print/online combination packages. Adult Development and Aging Nov 28 2019 In this second edition of Adult Development and Aging: Biopsychosocial Perspectives, Susan Krauss Whitbourne makes an important contribution to the educational mission of the field by providing accurate and current information and a positive perspective on the years of adulthood and old age. Whitbourne explores the art of successful aging, focusing on how individuals can take an active role in the aging process and make it a rewarding developmental period, filled with vitality and creativity. Now revised with substantially updated references and recent findings, the second edition combines both research and applied perspectives, and integrates information from the biological, cognitive, and psychosocial perspectives as they relate to the middle and later years of adulthood. The text presents a complete picture of the aging process, with enough information on both adulthood and later adulthood to allow instructors to alter their emphasis according to the needs and interests of students.

Digital Video Recorders Nov 08 2020 Four specific trends are driving the DVR industry: consumer content choice, consumer content control, personalization of content libraries, and the ability to transfer content from device-to-device and person-to-person. "Digital Video Recorders" features a macro and micro views of the already established yet still burgeoning DVR industry. As part of the NAB Executive Technology Briefing series, this book gives you a wealth of market knowledge, business models, case studies, and industry insignts explained in a non-technical fashion. "Digital Video Recorders" discusses the impact of the technology across many different industries and platforms, explains hardware, software and technology of set-top boxes, DVR infrastructure, on-screen guides, planning and scheduling, content security, and more. Whether you are an executive in the broadcast, telecommunications, consumer electronic, or advertising space, you will expand your knowledge on DVR impact, explore new business opportunities, and get a brief overview of the technical terms needed. You will also be able to accurately analyze and understand the trends, projections and other data, all of which will help lead to the expedited growth and development of DVR industry.

Encyclopedia of Computer Science and Technology Mar 25 2022 Presents an illustrated A-Z encyclopedia containing approximately 600 entries on computer and technology related topics.

Leo Laporte's Guide to TiVo Jun 15 2021 You probably bought your TiVo so that you would never have to miss another baseball game, soap opera or Thursday night sitcom again. It's great at what it does and is much friendlier than your VCR. But did you know that your TiVo is capable of so much more than recording your favorite programs? That is why Leo Laporte, a top voice in consumer technology, and Gareth Branwyn, of Wired magazine, got together to bring you Leo Laporte's Guide to TiVo, a fun, light-hearted and in-depth look at TiVo and all that it is capable of. In this easy-to-follow guide, you will learn remote control trickery, how to upgrade your TiVo hardware, how to add a CallerID display to your television and how to add web capabilities. Take control of your television destiny with Leo Laporte's Guide to TiVo.

IPTV Multimedia Networks Aug 25 2019 Addressing internet protocol television (IPTV) and multimedia networks, this guide identifies the differences between this novel, revolutionary technology and regular cable and satellite networks. It provides in-depth knowledge and design principles needed for IPTV delivery, along with relevant, vivid examples from more than 25 technological companies. This research report includes informative material and data compiled by the authors through hundreds of references. In addition, it introduces new technical concepts and business models obtained through many years of research in the area of coding that can be used in future IPTV systems and covers the basics of networking technology as well as the state-of-the-art networking architecture and middleware used in modern IPTV delivery.

The ROV Manual Nov 20 2021 Written by two well-known experts in the field with input from a broad network of industry specialists, The ROV Manual, Second Edition provides a complete training and reference guide to the use of observation class ROVs for surveying, inspection, and research purposes. This new edition has been thoroughly revised and substantially expanded, with nine new chapters, increased coverage of mid-sized ROVs, and extensive information on subsystems and enabling technologies. Useful tips are included throughout to guide users in gaining the maximum benefit from ROV technology in deep water applications. Intended for marine and offshore engineers and technicians using ROVs, The ROV Manual, Second Edition is also suitable for use by ROV designers and project managers in client companies making use of ROV technology. A complete user guide to observation class ROV (remotely operated vehicle) technology and underwater deployment for industrial, commercial, scientific, and recreational tasks Substantially expanded, with nine new chapters and a new five-part structure separating information on the industry, the vehicle, payload sensors, and other aspects Packed with hard-won insights and advice to help you achieve mission results quickly and efficiently

Battleground: The Media [2 Volumes] Jul 05 2020 Provides an overview of the many debates and controversial topics currently connected with our mediad.

The Baby Owner's Manual Dec 22 2021 At Last! A Beginner's Guide to Newborn Baby Technology You've programmed your DVR, you've installed a wireless Internet connection, you can even check Facebook on your cell phone. But none of this experience will prepare you for the world's biggest technological marvel: a newborn baby. Through step-by-step instructions and helpful schematic diagrams, The Baby Owner's Manual explores hundreds of frequently asked questions: What's the best way to swaddle a baby? How can I make my newborn sleep through the night? When should I bring the baby to a doctor for servicing? Whatever your concerns, you'll find the answers here—courtesy of celebrated pediatrician Dr. Louis Borgenicht and his son, Joe Borgenicht. Together, they provide plenty of useful advice for anyone who wants to learn the basics of childcare.

Communication Technology and Social Change Mar 01 2020 Communication Technology and Social Change is a distinctive collection that provides current theoretical, empirical, and legal analyses for a broader understanding of the dynamic influences of communication technology on social change. With a distinguished panel of contributors, the volume presents a systematic discussion of the role communication technology plays in shaping social, political, and economic influences in society within specific domains and settings. Its integrated focus expands and complements the scope of existing literature on this subject. Each chapter is organized around a specific structure, covering: *Background—offering an introduction of relevant communication

technology that outlines its technical capabilities, diffusion, and uses: *Theory—featuring a discussion of relevant theories used to study the social impacts of the communication technology in question: *Empirical Findings—providing an analysis of recent academic and relevant practical work that explains the impact of the communication technology on social change: and *Social Change Implications—proposing a summary of the real world implications for social change that stems from synthesizing the relevant theories and empirical findings presented throughout the book. Communication Technology and Social Change will serve scholars, researchers, upper-division undergraduate students, and graduate students examining the relationship between communication and technology and its implications for society.

Mobile TV: Customizing Content and Experience Jul 25 2019 Developing usable, useful, and appealing solutions for the customer or user experience requires customization according to specific users' needs amidst frequently changing physical and social environments. Complex design problems like these require interdisciplinary perspectives that cover software functionality, human interaction and communication experiences, and perceived value. After defining and summarizing current research and development, this book focuses on Mobile TV experience in everyday life, innovative conceptual and participatory design methods, contextual analysis methods, social context for interactive multimedia systems, advanced interaction with mobile digital content, and future trends for the wide range of products and services that will be offered in the decade to come. The Editors have carefully balanced the theoretical and empirical approaches providing a valuable insight into principles and methods, as well as actionable guidelines and recommendations for all those interested in exploring how to achieve the core objectives of usability, usefulness, and social appeal of this new mobile-video technology. The book answers many questions, and raises some new ones that only future technology development and deployment in mobile human-computer interaction and communication can answer.

TV Futures May 15 2021 TV Futures: Digital Television Policy in Australia brings together leading writers from both law and media studies to examine the implications of the shift to digital television for the platforms and audiences, copyright law and media regulation. The book combines writers with expertise in media law and copyright law with those skilled in media policy and social and cultural research. Through its scope and topicality, the book substantially develops the literature on digital television to serve readers from across the fields of law, the humanities and social sciences.

The Savvy Guide to Home Theater Apr 13 2021 Assists the reader with the purchase, upgrade, and installation of his or her home theatre system. This guide helps the reader in identifying movies, or enjoying music. After reading this book the reader is able to make educated choices in the purchase of components and cabling, whether building a system from scratch or adding one piece at a time.

IMDC-IST 2021 Aug 18 2021 This book contains the proceedings of the Second International Conference on Integrated Sciences and Technologies (IMDC-IST-2021). Where held on 7th–9th Sep 2021 in Sakarya, Turkey. This conference was organized by University of Bradford, UK and Southern Technical University, Iraq. The papers in this conference were collected in a proceedings book entitled: Proceedings of the second edition of the International Multi-Disciplinary Conference Theme: "Integrated Sciences and Technologies" (IMDC-IST-2021). The presentation of such a multi-discipline conference provides a lot of exciting insights and new understanding on recent issues in terms of Green Energy, Digital Health, Blended Learning, Big Data, Meta-material, Artificial-Intelligence powered applications, Cognitive Communications, Image Processing, Health Technologies, 5G Communications. Referring to the argument, this conference would serve as a valuable reference for future relevant research activities. The committee acknowledges that the success of this conference are closely intertwined by the contributions from various stakeholders. As being such, we would like to express our heartfelt appreciation to the keynote speakers, invited speakers, paper presenters, and participants for their enthusiastic support in joining the second edition of the International Multi-Disciplinary Conference Theme: "Integrated Sciences and Technologies" (IMDC-IST-2021). We are convinced that the contents of the study from various papers are not only encouraged productive discussion among presenters and participants but also motivate further research in the relevant subject. We appreciate for your enthusiasm to attend our conference and share your knowledge and experience. Your input was important in ensuring the success of our conference. Finally, we hope that this conference serves as a forum for learning in building togetherness and academic networks. Therefore, we expect to see you all at the next IMDC-IST.

Learning to Teach Foreign Languages in the Secondary School Jan 11 2021 Praise for previous editions:- ' A wealth of theory, research, practical advice, case studies and tasks in one volume...Indispensable for both HEI tutors and mentors, and an important book to recommend to all MFL students.' – Language Learning Journal ' Presenting clear, straightforward, factual information on all current issues facing MFL student teachers ... An excellent reference guide during the first years of teaching.' – Mentoring and Tutoring Learning to Teach Foreign Languages in the Secondary School has established itself as the leading textbook for student teachers of foreign languages in the UK and internationally. Network Dvr Oct 08 2020 Are there any constraints known that bear on the ability to perform Network DVR work? How is the team addressing them? What key business process output measure(s) does Network DVR leverage and how? Are there recognized Network DVR problems? Will team members regularly document their Network DVR work? What is Network DVR's impact on utilizing the best solution(s)? Defining, designing, creating, and implementing a process to solve a business challenge or meet a business objective is the most valuable role... In EVERY company, organization and department. Unless you are talking a one-time, single-use project within a business, there should be a process. Whether that process is managed and implemented by humans, AI, or a combination of the two, it needs to be designed by someone with a complex enough perspective to ask the right questions. Someone capable of asking the right questions and step back and say, 'What are we really trying to accomplish here? And is there a different way to look at it?' For more than twenty years, The Art of Service's Self-Assessments empower people who can do just that - whether their title is marketer, entrepreneur, manager, salesperson, consultant, business process manager, executive assistant, IT Manager, CxO etc... - they are the people who rule the future. They are people who watch the process as it happens, and ask the right questions to make the process work better. This book is for managers, advisors, consultants, specialists, professionals and anyone interested in Network DVR assessment. All the tools you need to an in-depth Network DVR Self-Assessment. Featuring 488 new and updated case-based questions, organized into seven core areas of process design, this Self-Assessment will help you identify areas in which Network DVR improvements can be made. In using the questions you will be better able to: - diagnose Network DVR projects, initiatives, organizations, businesses and processes using accepted diagnostic standards and practices - implement evidence-based best practice strategies aligned with overall goals - integrate recent advances in Network DVR and process design strategies into practice according to best practice guidelines Using a Self-Assessment tool known as the Network DVR Scorecard, you will develop a clear picture of which Network DVR areas need attention. Included with your purchase of the book is the Network DVR Self-Assessment downloadable resource, which contains all questions and Self-Assessment areas of this book in a ready to use Excel dashboard, including the self-assessment, graphic insights, and project planning automation - all with examples to get you started with the assessment right away. Access instructions can be found in the book. You are free to use the Self-Assessment contents in your presentations and materials for customers without asking us - we are here to help.

MS-DOS Power User's Guide Jan 23 2022

Smartonomics Jun 03 2020 In today's global village, every manager is a global manager. Even if your business is putatively 'local', with no sales abroad, you still probably face competitors in other countries. Smartonomics provides global managers with a simple, powerful set of macroeconomic tools, many of which have been until now rather opaque for non-economists, that empower them to think independently, swim against the tide (when warranted), and at times enter markets when everyone else is abandoning them. It will provide managers a holistic picture of the global marketplace and the systemic risks it conceals. Throughout this book, readers will find numerous case studies, illustrating how smart managers transform risk into opportunity, as well as numerous action learning exercises, to help readers test whether they understand the eight tools well enough to employ them and through them achieve important insights.

SharePoint 2003 User's Guide May 27 2022 * Provides a "real world" view and best practices around using SharePoint 2003 technologies to meet business needs. * Seth Bates was the technical reviewer for both of Scot Hillier's books. * Lists the most common deployment scenarios of SharePoint technologies and the ways to best leverage SharePoint features for these scenarios.

Navigating the News: A Political Media User's Guide Nov 01 2022 This is the book for anyone who aspires to the title "informed citizen." It clearly explains how political news works, how the media influences readers—and how to sort through it all to be a better, smarter consumer of political news. • Shows readers how to spot bad political arguments, as well as why they should be skeptical of the "hard data" behind many of those arguments • Shares clear, accessible explanations of the ever-present biases that affect our view of political news • Offers a multitude of clear examples taken from current politics on ways in which media distorts political information and messages • Provides a compelling look at social media platforms such as Facebook and Twitter as sources of political information, how we perceive information from these venues, and how they affect our understanding of American political dialogue
