Foundations of Anthroposophical Medicine May 03 2020 A comprehensive textbook for doctors undertaking courses in anthroposophical medicine. It includes chapters on the philosophical foundations of anthroposophical medicine; developing dynamic perception; polarities; metamorphosis; working with the texts of Rudolf Steiner; and the anthroposophical path of inner development.

Disability, Equality, and Human Rights Jul 05 2020 This book's basic premise is that disabled people themselves know best what their needs are and that they should be involved in the planning and delivery of relief and development initiatives. The most effective support that agencies can offer is to empower them to claim their basic human rights and their civil and legal rights. The text is based on the experience of Oxfam staff working before, during and after the crisis in Kosovo; but its principles and practical training materials can be applied far more widely. Case studies from Africa and Asia arising from the work of Action and Disability and Development (ADD) show how the values of equality, empowerment and autonomy that are promoted by the social model of disability are universal in their relevance. It suggests practical materials particularly useful to trainers working in geographically isolated areas without access to sophisticated equipment. Most activities and exercises can be adapted for use in groups of people with a wide range of impairments and educational levels.

How to Be a Spy Aug 18 2021 During World War II, training in the black arts of covert operation was vital preparation for the 'ungentlemanly warfare' waged by the Special Operations Executive (SOE) against Hitler's Germany and Tojo's Japan. Reproduced here is the most comprehensive training syllabus used at SOE's Special Training Schools (STs) showing how agents learnt to wreak maximum destruction in occupied Europe and beyond. The training took place in country houses and other secluded locations ranging from the Highlands of Scotland to Singapore and Canada. An array of unconventional skills are covered - from burglary, close combat and silent killing through to propaganda, surveillance and disguise - giving insight into the workings of one of World War II's most intriguing organizations. Denis Rigden's introduction sets the documents in its historical context and includes stories of how these lessons were put into practice on actual wartime missions.

Police Training Manual Jan 29 2020 This 10th edition of the "Police Training Manual" has been brought completely up-to-date. It is a concise legislative guide that should be useful to police officers throughout their career.

Dealing with Bullying in Schools Sep 26 2019 `jargon-free and concise. This is a very readable, thorough and practical book of use to young people, parents and in particular to school staff in preventing and dealing with bullying' - Counselling Children and Young People (CCYP) '...the authors drive home the strong message that bullying 'should never be accepted' and how it can be life threatening. There is clear evidence that the training is based on current research. I found the format innovative, with the excellent add-on of being able to download PowerPoint training slides from the publisher's website' - Emotional and Behavioural Difficulties `Highly readable and practical, this is a book that provides details of specific ways in which members of the of the school community can collaborate to reduce the incidence of bullying in their school' - Teacher `This is a clearly written and well designed resource. It is likely to be of value to anyone wishing to develop active anti-bullying policies in schools and is designed for use as a staff development tool over a period of time, but is also focused on the needs of parents, children and young people themselves. It provides some excellent guidance on writing an anti-bullying policy, a useful overview of practical strategies to prevent and counter bullying, helpful advice for parents of children who are being bullied, or children who are involved in bullying others' - SENCO Update `I like the book's message: Bullying is an activity rather than a stereotypical role. It's no blame approach aims to modify behaviour to avoid provoking a cycle of escalating violence' - The Psychologist `This excellent book begins by dispelling some myths, hoping to offer schools constructive ways to tackle this deep-seated problem. Clear courses of action are set out, including some for parents whose children are bullying others, and there are photocopiable training resources in the appendices' TES Special Needs `This is a carefully considered and road-tested book that could be an invaluable resource to staff seeking to develop their school's response to bullying'- Journal of In-Service Education `Dealing with Bullying in Schools is a very readable book and should be available in every school in the country. What the book emphasizes is that bullying is everyone's problem not merely teacher. This includes the Head of the school, parents and everyone who is part of the community within the school' - Dr L F Lowenstein, Educational, Clinical and Forensic Psychological Consultant `The book is strong on practical information, including handouts and overhead projector sheets, for training staff, students and parents'- Geoff Barton, Times Educational Supplement, Friday Magazine Developed from training courses run by the two authors on the subject of dealing with bullying in schools, this book is designed to work as a training manual. It is geared towards the needs of the class teacher, the school management team, the bullied, the bullies and the parents of both parties. Each chapter offers a set of resources with commentaries for these different groups, so that the reader is provided with a complete pack of advice, guidance and resources. The book includes: - a step-by-step guide to formulating an anti-bullying policy for your school; - suggested strategies for countering and preventing bullying; - detailed advice on working with parents; - clear guidance for parents on what to do if their child is being bullied or is doing the bullying; - tailor-made presentations to use with colleagues and parents. Anyone involved in this issue in a school setting should find this book invaluable. To download the PowerPoint slides from the Appendices, please click on 'Sample Chapters and Resources' to the left

The Handbook of Communication Training Feb 09 2021 Communication remains a significant topic for job acquisition, development, and advancement. As such, there are no shortage of classes, seminars and books written on the subject. However, there are few designed for the corporate consultant that are not aligned with some proprietary system, traditional academic classrooms, or author's speculation. These tend to be either inaccessible, questionable in their content, or specifically aligned with the producers' interests. So where can the Communication trainers and consultants go to focus on fundamental touchstone research and practices? The Handbook of Communication Training is a powerful template, and first of its kind, for communication practitioners and academicians who wish to strengthen their professional capabilities. It also acts as a guide and standard for consumers and clients of these services. The chapters within are an outgrowth of the National Communication Association's Training & Development Division's desire to provide guidance, structure, and support for members and non-members alike. It is specifically targeted at those pursuing best practices regarding communication consulting, coaching, teaching and training. The 7 Best Practices presented in this book represent capabilities that are foundational to the effective transfer of communication promotion and skill enhancement. As such, these practices, and supporting chapters, should appeal to novice and experts alike.

The Author Training Manual Jul 29 2022 If you want to write a book that's going to sell to both publishers and readers, you need to know how to produce a marketable work and help it become successful. It starts the moment you have an idea. That's when you begin thinking about the first elements of the business plan that will make your project the best it can be. The reality is that you don't want to spend time and energy writing a book that will never get read. The way to avoid that is to create a business plan for your book, and evaluate it (and yourself) through the same lens that an agent or acquisitions editor would. The Author Training Manual will show you how to get more creative and start looking at your work with those high standards in mind. Whether you're writing fiction or non-fiction, or intend to publish traditionally or self-publish, author Nina Amir will teach you how to conduct an effective competitive analysis for your work and do a better job at delivering the goods to readers than similar books that are already on the shelf. Packed with step-by-step instructions, idea evaluations, sample business plans, editor and agent commentaries, and much more, The Author Training Manual provides the information you need to transform from aspiring writer to career author.
